**From playgrounds to front yards to driveways, Elam Sand & Gravel Corp. makes it fast & easy with our Soil King Slingers!
Newly modified to shoot material farther than ever!**

Elam Sand & Gravel's specialized delivery fleet was designed with the landscaper & homeowner in mind. The Soil King Slingers can make any job faster and easier. A Soil King can throw and spread materials from stone to topsoil. Working off a conveyor system, it is the ideal way to tackle hard-to-reach areas (such as over fences). It can spread a 20-ton load of topsoil or stone in approximately 30 minutes.

Call the Dispatch Hotline at (585) 657-8000 to place an order or to ask questions about your landscape or yard work material needs. Elam Sand & Gravel Corp's courteous and knowledgeable staff will gladly take the time to help you determine the type and quantity of material needed. Remember to get the dimensions of your project area—including length, width, and depth—before you call. They can recommend the most economical and time-saving delivery option.

Decorative Stone (Earthtone Colors)
Mulch

Springtime Safety Refresher

Attention all independent contractors, customers and visitors. Due to an increasing number of fatal and serious injury accidents on mine properties throughout the country, the Mine Safety and Health Administration has stepped up its inspection and enforcement activities. All persons present on mine property must comply with MSHA guidelines and safety standards. Citations, if warranted, will be issued to individuals, contractors and customers. In order to ensure a safe and citation-free season, please review and circulate the following **safety checklist** to anyone in your organization who will be on our mine properties.

Safety Checklist

1. Vehicle speed limit: 10 m.p.h.
2. Vehicles must be designed and maintained to safely negotiate mine property terrain (for example, brakes must be able to hold vehicle on steepest terrain encountered).
3. All persons must remain in their vehicles except when conducting scale house business.
4. All persons must wear mandated safety attire—including steel-toed shoes, a hard hat, safety glasses and hearing protection—outside the scale house area.
5. All vehicles with limited reverse visibility (this includes trailers and pickup trucks with caps or tool boxes) must have operating backup alarms or wait to be spotted by an Elam employee before traveling in reverse.
6. All persons must follow the directions of on-site personnel.

**REMEMBER:
WORK SAFE, WORK SMART!**

Did the wet weather this past winter get your driveway down? Give it a lift with Elam Sand and Gravel Corp's crushed driveway stone.

Material Update

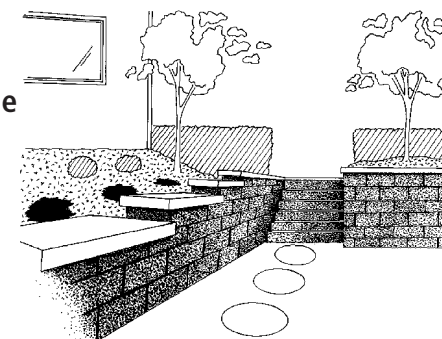

Elam Sand & Gravel is pleased to announce that we have minus 1" crusher run at our Geneva-Oaks Corners plant now available.

Competitively-priced, high quality screened topsoil is available for delivery

No order too large or too small. Same-day and weekend deliveries possible. Call the Dispatch Hotline at (585) 657-8000 to place your order.
